# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

# INTRODUCTION

R. L. POLK & CO., publishers of the Hammond City Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public, this, the 1931 edition of the Hammond Directory, which also includes Calumet City and Burnham, Ill. An important feature of this edition is the double house-numbering, which shows the new number followed by the old number in parentheses.

Confidence in the growth of Hammond's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Hammond to the world.

The enviable position occupied by R. L. POLK & CO.'S directories in the estimation of the public throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Hammond Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Population

The estimated population of Hammond is 65,712, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

## Five Major Departments

The several essential departments are arranged in the following order:

**THE MISCELLANEOUS DEPARTMENT**, pages 11 to 15, presents a variety of information, such as lists of city, county and federal officials; post office and public school directories; statistical review; manufacturing, trade and civic surveys, etc.

**THE BUYERS' GUIDE**, pages 21 to 64, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Hammond and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Hammond, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

**THE ALPHABETICAL LIST OF NAMES** of residents, business firms and corporations is included in pages 65 to 457. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 461 to 552. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. A feature of this section is the distinction between tenant-owned and rented homes.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 553 to 595. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under

appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

#### **Community Publicity**

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and service as perpetual and reliable advertisements of Hammond and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

#### **The Hammond Directory Library**

Through the courtesy of the publishers of the Hammond City Directory, a Directory Library is maintained in the offices of the Hammond Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,  
Publishers.

# HAMMOND

## "The Map Shows Why Hammond Grows"

### Statistical Review

Form of Government—Federal.

Population—64,560 (1930 U. S. Census). Native white, 77%.

Area—28 square miles.

Altitude—585 feet.

Parks—7, with total of 131.28 acres valued at \$1,000,000.

Assessed Valuation—\$101,326,885.

City's Bonded Debt—\$1,437,780.

Financial—4 banks and 1 trust company. Clearings for 1930, \$220,-854,000.

Post-office Receipts — \$322,582.45 (1930).

Telephones in Service—11,282.

Churches—55, all denominations.

Real Estate—13,000 homes, with about 77% owned by occupants.

Trade—Retail area has radius of 15 miles and population of 150,000.

Newspapers—1 daily.

Hotels—4, with total of 400 rooms. Newest hotel built in 1927.

Railroads—9 steam and 3 electric.

Amusements—Largest auditorium seats 2,000 persons. 4 theatres, with total seating capacity of 5,800 persons.

Hospitals—1, with 250 beds.

Education—18 schools, including 2 high and 10 parochial. Total number of pupils, 15,950. Total number of teachers, 477.

Volumes in Libraries—70,742.

City Statistics—Total street mileage, 270, with 137.5 miles paved. Miles of gas mains, 202.28, and of sewers, 152. Capacity of water works, 45,-000,000 gallons; daily average pump, 17,500,000 gallons, with 200 miles of mains, and plant valued at \$2,500,000. Fire department employs 85 men, with 2 autos, 7 engines, 1 hose and chemical wagon and 2 hook-and-ladder trucks, in 5 station houses. Police department has 74 men, with 2 stations and 10 pieces of motor equipment.

### "The Map Shows Why Hammond Grows"

Located in the heart of industry, commerce and population.

Where millions of outside capital are annually creating giant industries.

Where cities are doubling their population every ten years.

Where converge the main traffic thoroughfares of the United States.

Where raw materials meet in the rough, are converted into the finished product and shipped to every portion of the globe.

With the lowest freight rates in existence, viz: Chicago rates.

On navigable waters.

### What Hammond's Geographical Location Means

Today Hammond has sixty-five thousand people.

The steel interests, super-power interests, railroad interests, oil-refining interests, automobile and airway interests, by word and deed, foresee the time, not far distant, when Hammond will be the hub of a metropolitan district of from six to seven million people, living from Waukegan, Ill., to Michigan City, Ind. The nation's industrial center of gravity is shifting to the Calumet Region.

Why will the Calumet Region become the greatest industrial area on the face of the globe?

### BECAUSE OF GEOGRAPHIC LOCATION

Because of its geographic location, the Chicago-Calumet Region has:

#### 1—Unequalled Transportation

- a. It is the natural, unobstructed transportation focus of a great, low-lying plain, already possessed of the greatest network of railroads on earth. This concentration of transportation lines alone is enough to guarantee the growth of a great city.
- b. It is the center of a network of hard-surfaced roads radiating to every point of the compass, affording quick dispatch service for smaller tonnage. It is a highway freight center.
- c. Enough has been made known of well-prepared plans to make it certain that the region will also become the airway transportation focus of the country in the not-far-distant future.
- d. Waterways, embodied in the Great Lakes, canals and rivers, mean wholesale water-borne transportation, and in turn, mean

- e. Cheap and favorable freight rates, the lowest obtainable anywhere.

## 2—Lavish Raw Materials

- a. Accessibility to the cheap and fabulously plentiful iron ore deposits of the Lake Superior district producing over four-fifths of all American iron.
- b. Accessibility to untold resources of minerals, such as clay, limestone and sandstone.

## 3—Cheap Fuel Plentiful

- a. Great coal fields located just over the horizon to the south of the Chicago-Calumet Region supply it with an abundance of high-grade industrial coal. That means
- b. Cheap power for manufacturing purposes. It means
- c. The development, because of the presence of unlimited quantities of water, of an unrivaled super-power system.
- d. Because of its geographic location, the region has attracted to itself great oil refineries, prepared to deliver fuel oil in unlimited quantities.

## 4—Markets Quickly Reached

- a. Because of its transportation facilities and because within a night's ride are located 62,000,000 people, the markets for the products of the Chicago-Calumet Region are very accessible and quickly reached.
- b. Not to be forgotten is the money market. The banks in the region are capable of handling the needs of a great industrial community.

## 5—Manpower Resources

- a. Having within its confines the world's third largest city, the Chicago-Calumet Region has an inexhaustible supply of brain and brawn constantly at its command.

And back of all this is the fact that tributary to the Chicago-Calumet Region is a rich and fertile farming soil beyond compare, favored by weather conditions into producing billion-bushel cereal crops and raising meat and dairy products in abundance.

That, in a nutshell, is the story of our geographic location and its advantages. And while we may all rejoice over the marvelous growth of the region, we should not lose sight of the fact that this development is still in its infancy. Dr. J. Paul Goode, eminent geographer of the University of Chicago, whose recent lecture in Hammond forcibly turned our attention to these predominant natural resources and advantages, predicts for the Chicago-Calumet Region the site of the world's largest city.

## Thank Dame Nature

The Chicago-Calumet Region is, therefore, merely the visible and physical expression of the focusing into this favored spot of the various geographic advantages in serving a tributary territory, which, in turn, is the source of the region's present and future greatness.

# *The Symbol of Service in fine Book-making*

THE distinctive Conkey Winged Horse trade mark is symbolic of over fifty years of development in the printing arts. It typifies an institution of capability. The immense Conkey plant embodies mental and mechanical equipment that has succeeded in manufacturing fine books for over a half-century.

The Winged Horse imprint in your book signifies quality from cover to cover. It assures strength of construction, fine papers, excellent typography, and long service.

The ability to produce fine books is a Conkey achievement that should be of profitable interest to you.

## EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

# THE BANK DIRECTORY OF THE WORLD

## *Polk's Bankers Encyclopedia*

### **MOST CONVENIENT AND COMPLETE BANK DIRECTORY**

Polk's Bankers Encyclopedia, issued semi-annually in March and September, is compiled for the use of bank executives, brokers, collection and credit men, manufacturers, merchants and industry generally. It covers completely and accurately the banking field throughout the whole world, giving the names of officials and directors, resources and liabilities in detail.

#### **ISSUED IN TWO VOLUMES**

**VOLUME ONE**—Devoted to the United States, U. S. Possessions, Canada and Bank Laws.

**VOLUME TWO**—FOREIGN SECTION—Devoted to Banks and Bankers Throughout the World. (Except the United States, U. S. Possessions and Canada).

The FOREIGN SECTION, included without additional cost to subscribers of POLK'S BANKERS ENCYCLOPEDIA, is the only complete list of its kind.

Price \$15.00 per copy

In Canada and Foreign Countries \$20.00

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

HAMMOND DIRECTORY OF HOUSEHOLDERS (1931)

461

# POLK'S HAMMOND

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1931

Copyright, 1931, by R. L. Polk & Co.

Numerals in parenthesis designate the old street numbers.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

# When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on  
a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of prob-  
lems that pop up unexpectedly to  
annoy and baffle you.
- you can quickly find the answer in  
the City Directory.**

# CITY DIRECTORY USES

## 1. SALES PROMOTION:

### a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

### b. Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

### c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

### d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.

2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.

3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, sales-managers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

## 2. CREDIT:

### a. Verifying customer's statements and information.

### b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

### c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

# FOR EVERY BUSINESS<sup>Z</sup>

## d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

## e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

## 3. DELIVERY AND SHIPPING:

### a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

### b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

### c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

## 4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (\*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

## 5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
